RELEVANT EXPERIENCE

Senior Software Engineer II, GeekyAnts | Bengaluru | Oct 2021 – Present

- Led end-to-end development of a React Native (Expo) fleet tracking app serving 50,000+ users, rendering 1,000+ live GPS devices at 60 FPS using C++ JSI-based clustering with zero crash rate.
- Built and open-sourced expo-video-cache, a zero-dependency Expo Module for iOS HLS video caching using a custom Swift TCP proxy server — 100+ weekly npm downloads, shipped to production.
- Led authentication and feature modules for a cross-platform monorepo (React Native, Next.js, React) serving 10+ restaurant brands under an \$11B enterprise, reducing auth-related issues by 40%.
- Core contributor to a Design System powering a 500M+ download super-app and 10+ companion apps — reduced pod size by 50% and UI bugs by 40%.
- Built a Figma plugin converting email designs to production-ready HTML at ~95% accuracy with AI-powered alt-text generation.
- Designed and published an iOS In-App Purchase SDK using Swift/StoreKit2 with 85%+ test coverage (XCTest) and Xcode Cloud CI/CD.

OPEN SOURCE CONTRIBUTIONS

Author and maintainer of [expo-video-cache \(npm\)](#), enabling efficient video caching for Expo/React Native applications.

SKILLS

React Native, Expo, React, Next.js, TypeScript, NestJS, Node.js, Supabase, PostgreSQL; Nx, Git, Xcode Cloud, Figma;

AWARDS

Tech Innovator Award – GeekyAnts, for geospatial map performance optimization in production fleet tracking app.

Impact Contributor Award – GeekyAnts, for open-source expo-video-cache solving iOS HLS video caching for the React Native/Expo ecosystem.

EDUCATION

BTech in Electronics and Communication Engineering | 2020 | 8.33 CGPA
